

ABOUT ME

I am a versatile Software Engineer specializing in full-stack web and mobile application development. My expertise spans modern frameworks like React, Next.js, and React Native, alongside robust cross-platform development using Flutter and Dart. Proficient in advanced state management and dedicated to clean UI/UX design architectures, I focus on building scalable, database-driven enterprise solutions. Currently working remotely at nResult, I am passionate about leveraging modern technologies to deliver high-quality, user-centric software.
